Polyhedral Oligomeric Silsesquioxane (POSS®)
Liquid Form
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations
Date of issue: 01/21/2016 Revision date: 01/09/2017 Supersedes: 01/21/2016 Version: 1.1

SECTION 1: Identification

1.1. Identification
Product form : Substance
Trade name : Polyhedral Oligomeric Silsesquioxane (POSS®)
CAS No : NA
Product code : Various
Formula : (RSiO1.5)n

1.2. Relevant identified uses of the substance or mixture and uses advised against
Use of the substance/mixture : POSS molecules are a unique class of materials, typically hybrid molecules consisting of a silicacage core, with organic functional groups attached to the corners of the cage. POSS nanostructures range from 1-3 nm diameter. POSS molecules can be used as reactive ingredients for polymers, or as inert additives to impact desired properties.

1.3. Details of the supplier of the safety data sheet
Hybrid Plastics
55 Runnels Dr.
Hattisburg, MS 39401 - USA
T +1.601.544.3466 - F +1.601.545.3103
info@hybridplastics.com

1.4. Emergency telephone number
Emergency number : US and Canada: 1.800.255.3924 International: +01.813.248.0585

SECTION 2: Hazard(s) identification

2.1. Classification of the substance or mixture
GHS-US classification
Not classified

2.2. Label elements
According to the corresponding national regulations there is no labelling obligation for this product.

2.3. Other hazards
Other hazards not contributing to the classification : May be slightly irritating to eyes, respiratory system and skin.

2.4. Unknown acute toxicity (GHS US)
100% (oral, dermal, inhalation)

SECTION 3: Composition/information on ingredients

3.1. Substance
Substance type : Mono-constituent

Full text of H-statements: see section 16

3.2. Mixture
Not applicable

SECTION 4: First aid measures

4.1. Description of first aid measures
First-aid measures after inhalation : If inhaled and if breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
First-aid measures after eye contact : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
First-aid measures after ingestion: If swallowed, rinse mouth with water (only if the person is conscious). Do NOT induce vomiting unless directed to do so by medical personnel.

4.2. Most important symptoms and effects, both acute and delayed
Symptoms/injuries: No significant signs or symptoms indicative of any health hazard are expected to occur.

4.3. Indication of any immediate medical attention and special treatment needed
All treatments should be based on observed signs and symptoms of distress in the patient.

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media: If there is a fire nearby, use suitable extinguishing agents.
Unsuitable extinguishing media: None known.

5.2. Special hazards arising from the substance or mixture
Explosion hazard: Product is not explosive.
Reactivity: Normally stable, even under fire exposure conditions, and not reactive with water.

5.3. Advice for firefighters
Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection. Wear fire/flame resistant/retardant clothing. Wear a self-contained breathing apparatus.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel
Protective equipment: Avoid contact with skin and eyes. Chemical goggles or safety glasses. Wear suitable gloves.
Emergency procedures: Avoid all unnecessary exposure. Evacuate unnecessary personnel.

6.1.2. For emergency responders
Protective equipment: Equip cleanup crew with proper protection. Chemical goggles or safety glasses. Neoprene or nitrile rubber gloves.
Emergency procedures: Collect as much as possible in a clean container for (preferable) reuse or disposal. No additional risk management measures required.

6.2. Environmental precautions
Do not discharge into drains or the environment.

6.3. Methods and material for containment and cleaning up
Methods for cleaning up: Absorb and/or contain spill with inert material, then place in suitable container.

6.4. Reference to other sections
Section 7: safe handling. Section 8: personal protective equipment. Section 13: disposal information.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Precautions for safe handling: Provide local exhaust or general room ventilation.
Hygiene measures: Always wash your hands immediately after handling this product, and once again before leaving the workplace.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions: Store in a dry, cool and well-ventilated place. Store in correctly labelled containers. Keep container closed when not in use.
Prohibitions on mixed storage: Keep away from incompatible materials.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters
No additional information available
## Exposure controls

- **Appropriate engineering controls**: Either local exhaust or general room ventilation is usually required. Ensure good ventilation of the work station.
- **Personal protective equipment**: Avoid all unnecessary exposure.
- **Hand protection**: Nitrile rubber gloves.
- **Eye protection**: Chemical goggles or safety glasses.
- **Respiratory protection**: Appropriate dust or mist respirator should be used if airborne particles are generated when handling this material.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

### 9.2. Other information

- **VOC content**: 0%

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Normally stable, even under fire exposure conditions, and not reactive with water.

### 10.2. Chemical stability

Stable under normal conditions.

### 10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

### 10.4. Conditions to avoid

No additional information available.

### 10.5. Incompatible materials

No additional information available.
Polyhedral Oligomeric Silsesquioxane (POSS®)
Liquid Form
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

10.6. Hazardous decomposition products
Carbon oxides (CO, CO₂). Silicon oxides.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

| Likely routes of exposure                     | Dermal; Inhalation                  |
| Acute toxicity                                | Not classified. (Lack of data)      |
| Skin corrosion/irritation                     | Not classified. (Based on available data, the classification criteria are not met) |
| Serious eye damage/irritation                 | Not classified. (Based on available data, the classification criteria are not met) |
| Respiratory or skin sensitisation             | Not classified. (Based on available data, the classification criteria are not met) |
| Germ cell mutagenicity                        | Not classified. (Lack of data)      |
| Carcinogenicity                               | Not classified. (Lack of data)      |

Polyhedral Oligomeric Silsesquioxane (POSS®) (NA)

| IARC group                         | Not listed in carcinogenicity class |
| National Toxicology Program (NTP) Status | Not listed in carcinogenicity class |

Reproductive toxicity                        : Not classified. (Lack of data)
Specific target organ toxicity (single exposure) : Not classified. (Lack of data)
Specific target organ toxicity (repeated exposure) : Not classified. (Lack of data)
Aspiration hazard                           : Not classified. (Based on available data, the classification criteria are not met)

Potential adverse human health effects and symptoms : None under normal conditions.

SECTION 12: Ecological information

12.1. Toxicity
Ecology - general : No ecotoxicological data about this product are known. Keep product out of sewers and waterways.

12.2. Persistence and degradability
No additional information available

12.3. Bioaccumulative potential
No additional information available

12.4. Mobility in soil
No additional information available

12.5. Other adverse effects
No additional information available

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Waste disposal recommendations : Avoid release to the environment. Dispose in a safe manner in accordance with local/national regulations.

SECTION 14: Transport information

Department of Transportation (DOT)
In accordance with DOT
Not considered a dangerous good for transport regulations

TDG
No additional information available
Polyhedral Oligomeric Silsesquioxane (POSS®)

ACGIH (American Conference of Government Industrial Hygienists).
Internal Company test data.

Abbreviations and acronyms
ACGIH (American Conference of Government Industrial Hygienists).
ATE: Acute Toxicity Estimate.
GHS: Globally Harmonized System (of Classification and Labeling of Chemicals).

NFPA health hazard
0 - Exposure under fire conditions would offer no hazard beyond that of ordinary combustible materials.

NFPA fire hazard
0 - Materials that will not burn.

NFPA reactivity
0 - Normally stable, even under fire exposure conditions, and not reactive with water.
